

Science: Our two topics for Summer 1 are: Electricity and Sound.

We are going to be delving into how electricity works, why it is important and even making our own circuits!

For sound we are going to be learning how all sound is formed through a series of vibrations.

English

This term in English we will be learning about characterizing speech and our character we will be focusing on is Maleficent!

We are excited to learn about how we can create speech for a villainous character.

Humanities:

Our topic for humanities this term is called:

Switch Off! We will be learning all about the importance of saving energy and how we can help our planet. We will be learning about where energy comes from and discovering how our local history used energy in the past.

Maths:

In math's this term we will be learning how to subtract fractions from whole amounts, comparing and ordering decimal numbers and understanding angles within triangle and on a straight line.

Computing

In computing we will be learning all about spreadsheets.

We will be looking at why they are important, how they are used and even make some spreadsheets of our own.

Art/D&T

This term in Art we will be studying great artists such as: David Hockney, Edward Hopper and Paula Rego.

We will be looking into their history and style and creating some pieces of art on our own inspired by these artists.

RE- Buddhism

Our key question is:

What is the best way for a Buddhist to lead a good life?

This term we will be continuing to learn about the eightfold path and how this can help us to lead a good life.
