

Science:

In science, we are learning about sound! This is a brilliant topic where we can have some fun and explore the science behind sound. How is it made? Where does it come from? How can we make different sounds? All of these questions will be explored during this interesting and explorative topic. We have various practical tasks to support us with our learning!

English:

This term in English, we are recapping our science knowledge by writing an explanation of the digestive system. We will also be exploring characterising speech when we write a narrative about the history of Pompeii and the eruption of Mount Vesuvius. We will also write a persuasive letter from Boudicca's perspective. This writing will perfectly complement our history topic.

Humanities:

In history, we will be learning about the Romans and their impact on Britain. A few of the questions we'll answer are: Who was in charge? What happened in the final years?

In Geography, for our fieldwork unit of learning, we will record and measure the weather.

Maths:

In maths this term, we will use our knowledge of the four operations and apply them to decimals, money, time, shape, statistics and position and direction. We will also be working hard towards the Multiplication Check, which will take place in June.

Computing:

This term, in computing we will be learning all about how to create our own musical beats using a special software. We will be experimenting with tempo, pitch and composition. We will also be learning about different types of hardware and how it can be used in everyday life. Also, writing for different audiences and coding.

Art/D&T -

In art, we are going to be learning about monochromatic by observing landscapes and perspective.

In design and technology, we will be designing and making a torch, which will link to our science topic of electricity.

RE-

In the summer term, we will be learning about the religions of Christianity and Islam. We will be considering whether or not Christians need to go to church to prove that they are religious, and we will be exploring which places are special to us as and why. We will also be learning all about the five pillars of Islam.

PE: This term in P.E, we will be focusing on Bootcamp and 'Young Olympians' where we can explore how to efficiently and safely push our skills to the test. We will be practicing sprinting, jumping throwing and skipping - all in preparation for sports day!

RSHE:

In PSHE this term, we will learn all about relationships such as family and friendships and all about the changes in our body in changing me.

Year 4 Summer Topic Overview.
